## TEACHERS

Across this country, educators are losing their jobs, schools are closing, and the idea of increased compensation is too often a wish rather than a reality. It is quite different here in NYC thanks to the gains won by **UNITY/UFT**:

- + May 2013: 1% raise + May 2014: 1% raise + May 2015: 1% + 2% raise
  - \* October 2015: RETROACTIVE lump sum back to 2009
- + May 2016: 1.5% + 2% raise + May 2017: 2.5% + 2% raise
  - \* October 2017: RETROACTIVE lump sum #2
- + May 2018: 3% + 2% raise
  - \* October 2018: RETROACTIVE lump sum #3
  - \* October 2019: RETROACTIVE lump sum #4
  - \* October 2020: RETROACTIVE lump sum #5

In addition to the above, members continue to receive regular salary step increases, longevity increases, and salary differentials. This is all because of the work done by **UNITY/UFT**. Consider this - a **teacher** who started in 2007/2008 at an annual salary of **\$45,530** today earns **\$76,023** with a Master's Degree. In two years, with an additional 30 credits, that **teacher** will be making **\$94,199**. At the same time, a **teacher** at top salary will be making **\$119,471**. Take a look below at the progression:

DATE - % INCREASE	STEP	SALARY
May 19, 2008	Step 1B - base salary with no differential	\$45,530
May 1, 2013 – 1%	Step 6B + 5 years longevity with no differential	\$53,271
May 1, 2014 – 1%	Step 7B + 5 years longevity with no differential	\$58,523
May 1, 2015 – 1% + 2%	Step 8B + 5 years longevity with no differential	\$67,264
May 1, 2016 – 1.5% + 2%	Step 8B + 5 years longevity with Master's	\$76,023
May 1, 2017 – 2.5% + 2%	Step 8B + 5 years longevity with Master's	\$79,483
May 1/June 16, 2018 – 2% + 3%	8B + 10 years longevity with Master's + 30	\$94,199

**Top salary with 22 years longevity and Master's + 30 is: \$119,471**
